Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claims 1-20 are considered allowable over the prior art, as the prior art does not explicitly teach the calculating a first set of loudness levels for each instrument in a MIDI file, calculating a second set of loudness levels corresponding to an audio output range of a sound device; generating a mapping between the first set of loudness levels and the second set of loudness levels corresponding to the audio output range of the sound device, generating a gain term for each note in the MIDI file; and modifying the MIDI file using the second set of loudness levels and the gain term for each note in the MIDI file.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fay et al is further cited to show related teachings in the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Donels whose telephone number is 571-272-2061. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2800 ext 37. The fax phone
